MEMO

To: CBRM Board of Police Commissioners
From: Chief Peter McIsaac
Date: February 25, 2015
Topic: TMR2 Radio System

The CBRM has begun implementation of the provincial TMR2 Radio system here in our local jurisdiction.

This is an upgrade that both police and fire services have been working towards at great length, for interoperability among all levels of first responders right across the province on a state-of-the-art radio communications network for public safety. In addition to interoperability, the new system uses fully digital technology, based on current standards for public safety; and provides greater coverage from many new tower sites over a 700 MHz spectrum. Encryption is on the top of our priority list, and we are working towards the highest encryption possible for our police service.

We bring this item forward for your information, as work continues over the next several months to migrate to the new system, and integrate TMR2 radios into use. This includes hardware and software upgrades, as well as training, and will all happen in accordance with the same timeline of implementation across the province.

HIGHLIGHTS AND INITIATIVES

- Participated in Operation Christmas – a province-wide campaign to reduce impaired driving – throughout the month of December. Members of the Traffic Safety Unit and Patrols conducted checkpoints, including a CBRM wide checkpoint awareness day with MADD and the CBVRSB on December 16th.

- Held 7th Annual “Shop of the Class” in conjunction with the Mayflower Mall and Cape Breton-Victoria Regional School Board, helping 38 deserving students fulfill their Christmas wish lists with a $100 Mayflower mall gift certificate, in addition to an extra $100 each in shopping money, donated by local businessmen Joe Anthony and Jim Kennedy of S&L Seafoods – for the 3rd consecutive year. And, with a second annual contribution from North Sydney-based Mactech Distance Education, each student went home with a brand new winter jacket, purchased by Mactech at Sportcheck.

- With increased capacity in the Internet Child Exploitation (ICE) Unit, charged 4 individuals with 8 pornography-related charges, in a number of ongoing multi-jurisdictional investigations. The CBRPS ICE Unit – now staffed with two full time investigators and technological supports, to be able to appropriate and adequately deal with the changing nature and volume of internet-related crimes – investigates internet-based crimes against children, including offences such as accessing, possessing, making and distributing child pornography, as well as the luring of children over the internet for a sexual purpose. ICE investigators also specialize in conducting forensic examination and analysis of computers, electronic storage devices, cell phones and other mobile electronic devices.

School Crossing Guards Review and Recommendations
MEMO

To: CBRM Board of Police Commissioners
From: Chief Peter McIsaac
Date: February 25, 2015
Topic: School Crosswalk Guards Review

As part of the organizational review process in 2013-14, the CBRM hired an independent traffic consultant to review the School Crosswalk Guards program in our municipality, based on national policies, standards and data. Population decline has led to a decline in school enrollments and some school closures through the CBRM; yet, there had been minimal changes in the number of crossing guards we employ, and the program itself had never been reviewed in its 15+ years of existence.

Using research and field investigations – based on national standards for criteria, including: proximity to schools, street crossing width, traffic volumes and speeds, and the number of pedestrians crossing – the consultant provided the evidence to conclude that 9 locations were no longer required, and that an additional 18 locations required further review, primarily due to a lack of quality and/or consistent data. The CBRM endorsed this further review, and in June of 2014, again hired the independent traffic consultant to do so.

Based on the same principals and criteria, the follow-up assessment incorporated additional data, site investigation and consideration of more site specific factors at each location, to better determine needs and identify any opportunities for improvements. The evaluation recommends elimination of a further 9 crosswalk guard locations, determined to be unnecessary primarily due to school closures in those areas.

I ask for support of the Police Commission to accept this recommendation, to be then brought forward to Mayor and Council as part of the 2015-16 budget deliberations; if approved, the CBRPS Traffic Safety Unit will work with staff at the Cape Breton-Victoria Regional School Board and CBRM Public Works to make necessary modifications to infrastructure, before the locations are eliminated in advance of the start of the 2015-16 academic school year.
