* Plowing can be expected within 12 hours after the end of the storm.

** Plowing can be expected on these roads AFTER the Department of Transportation has plowed the connecting road or highway.

For snow removal and ice control on provincial roads and highways and any road or community not listed above, call

Nova Scotia Department of Transportation and Infrastructure Renewal 902-563-2245

CBRM Winter Operations Strategy

The general operating priority for winter conditions is as follows:

1. Plowing and de-icing of streets

During a storm, snow plowing efforts will be focused on Arterial Routes. Arterials are major roads carrying 10,00 vehicles per day and include emergency routes for hospitals, police and fire services.

Divisional Examples Arterial Roads:

CENTRAL	EAST	NORTH
Kings Road	Reserve Street	King Street

As the storm subsides, plowing will begin on Collector Routes, which are larger streets carrying less than 10,000 vehicles per day.

Divisional Examples Collector Roads:

CENTRAL	EAST	NORTH
Whitney Avenue	Beacon Street	Regent Street

Following the storm, plowing will begin on all remaining Residential Streets, after major Arterial & Collector streets are passable.

Divisional Examples Residential Streets:

CENTRAL	EAST	NORTH
Henry Street	Lake Road	Vickers Lane

2. Plowing designated sidewalks

Public Works will maintain designated sidewalks. Priorities will be given to areas with high volumes of traffic or those close to schools, hospitals and commercial districts. You are encouraged to clear the sidewalk around your property.

3. Clearing Hydrants

Snow clearing around hydrants will take place as quickly as resources can be made available. You can help by clearing the snow away from a hydrant on your street

4. Snow removal and clearing

Snow clearing will take place when accumulation warrants and as soon as time, equipment and materials allow. Snow clearing activities are prioritized by safety concerns and high-volume intersections and streets in commercial areas.

SAFETY

The CBRM is committed to workplace safety for its employees and contractors. The workplace for many of the staff is the streets and sidewalks in your community.

EMERGENCIES

If an Emergency arises, resources are allocated to the situation through the 911 protocol.

YOU CAN HELP

Do not put snow from your property onto the street or sidewalk. Unexpected piles of snow and ice are extremely dangerous to snow removal activities, and it is prohibited by CBRM Traffic By-laws and the NS Highways Act

FOR MORE INFORMATION

CBRM has a Winter Operations Strategy guiding efficient and cost-effective winter maintenance services with the capacity of available resources for infrastructure under the operational jurisdiction of the CBRM. This document can be viewed at www.cbrm.ns.ca
