Subject: howie center lot
Date: May 14, 2021 7:51:07 PM

hi Kristen,

I'd like to weigh in on the proposed car lot in howie center. I live at 2268 kings road and would be directly affected by the change. My partner and I bought our house recently because of the nature in the area and we would be very disappointed to have the quiet disturbed by vehicles driving behind our home constantly. This also directly affects the wildlife in the area dramatically which is constantly having their wooded areas disturbed. The combination of a busy lot in my back yard and the wildlife which we love be disturbed is extremely disappointing and defeats the purpose of moving to a quiet neighborhood. Not to mention that the lot is in the most inconvenient place for business to thrive. I hope you take this into consideration,
thank you.
