Case 1083**Public Hearing submissions received by voicemail, transcribed**

1. Good morning, I just spoke to you. I don't have all of that information [*the case number, civic address, or PID number*] in front of me. It's Barbara Arnelien from 51 King Street. We have two... three things that we're worried about. One is, on the one side of them there's a family with 5 small children. On the other side is a widow who lives all by herself. And for the last, I don't know, 2-3 months they've been parking on the road all day every day. We're just a little concerned, my husband is in a wheelchair full-time. We just are concerned. My name is Barbara Arnelien. Thank you.
