CBRM Forward: Growth Imperative Workshop

Facilitated by CBRM Forward consultants, Dillon Consulting Limited and Jupia Ltd., this growth imperative workshop will provide council with an update on the CBRM Forward project, including public engagement activities planned to date and the week of August 23-28th. This growth imperative workshop will explore three growth scenarios for CBRM to 2041. We will also explore development trends in the Region over the last decade and explore the cost implications of developing across different urban structures, including urban, suburban and rural areas. This workshop will lay the foundation for the growth management strategy, including growth and development targets to be included within the Municipal Planning Strategy update.
